Scope of Practice Consultation

Following the member's approval of the new NBASW legislation during the Association's Annual General Meeting in June, we have been hard at work developing the social work technician scope of practice.

Articulating a profession's scope of practice is a critical regulatory activity that helps regulated individuals understand the tasks that they can perform in practice and where the boundaries of their profession lie.

READ THE SCOPE OF PRACTICE DRAFT

To make the scope of practice as strong as possible, we need your feedback on the draft document! I encourage you to take some time to review the document above and **send us your feedback to the NBASW Social Work Consultant, Keara Grey, at keara.grey@nbasw-attsnb.ca by Sunday, November 12, 2023.**

While reviewing the draft, please take the time to review & reflect on the following questions:

- 1. If needed, how do you feel the social worker and social work technician descriptions can be enhanced?*
- 2. Do you feel that your work as a social worker is fully reflected in this document? If not, what is missing?*
- 3. Do you feel like the identified social work technician tasks meet the needs of clients and social workers? If not, what tasks should be added?*
- 4. Do you agree with the requirement for social work technicians to need to be supervised by a social worker to do certain tasks within their scope of practice? Why or why not?*
- 5. Do you have any other thoughts you'd like to share with the NBASW, regarding the Scope of Practice?*

NBASW Ethics, Standards and Guidelines Training

* NOW AVAILABLE *

New NBASW Ethics, Standards and Guidelines Training

A recording on the Standards Regarding the Capacity of Minors to Consent to Social Work Services has been created for members to complete as part of the mandatory CPE Policy training and to learn more about minors' eligibility to consent to social work services.

This training reviews what informed consent consists of, the assessment and re-assessment of a minor's capacity to consent to social work services using the Mature Minor Doctrine, and navigating client records and confidentiality.

The training counts as one CPE hour and the review and completion of adjacent documents may also be counted as CPE time. As part of the Continuing Professional Education (CPE) Policy, practicing and non-practicing NBASW members must complete at least one NBASW Ethics, Standards and Guidelines training every year.

Please refer to the [Q&A document](#) on the NBASW Ethics, Standards, and Guidelines Training related to the Capacity of Minors to Consent to Social Work Services for any questions.

Recommendations for the Provincial Long-Term Care Sector

Earlier this year, the NBASW surveyed members on the province's long-term care sector. The feedback and recommendations gathered were used to inform the New Brunswick's Office of the Child, Youth and Seniors' Advocate systemic review of long-term care in New Brunswick.

The Association's independent review was submitted and is being used by the CYSA to inform the development of legislation, regulations, and policies, focusing on in-home supports and residential services.

Every day, social workers contribute to the well-being of New Brunswickers, including individuals in the long-term care sector. We would like to thank every member who took part in the survey for providing valuable feedback.

Social Action Placement 250 hours

Unique to St. Thomas University is a 250-hour Social Action Placement. This group placement allows students to focus on broader social issues and community level interventions, rather than individual client work. This placement provides practical experience in the field allowing students to develop knowledge and skills in small teams utilizing a community-based approach to practice in agencies working on social issues.

Direct Practice Placement 450 hours

The 450-hour Direct Practice Placement provides practical experience in the field with a focus on integration of classroom and field learning. Students engage in foundational social work practice in the field with a goal of demonstrating the ability to plan and implement professional social work intervention with individuals, groups, and/or communities.

MSW Advanced Placement 450 hours

The MSW program at St. Thomas University focuses on advanced clinical practice providing students with advanced theory and practice skills in three major areas: professional leadership, social work supervision and advanced direct practice skills development. Students develop activities to implement during the field placement that are based on social work theories and research.
